

The Mobile Technology Lab (MTL)

The Mobile Technology Lab (MTL) supports Operation: Military Kids by helping to facilitate connections between deployed soldiers and their kids. The MTL laptops contain software and programs for children and youth to send personal messages and pictures to their deployed family members.

The MTL is also utilized by OMK partner organizations such as UNL Cooperative Extension, The National Guard, The American Legion, 4-H clubs, and after school programs who request the lab for events that involve or support military kids. The MTL can be used for events that have a combination of military and non-military youth.

Possible Uses of the MTL

- Bringing military and non-military kids together to create a DVD about issues that affect military kids.
- Doing special projects with an OMK theme in after-school programs.
- Taking digital pictures at military youth events and making a slide show.
- Having military kids from OMK youth events send messages, cards, pictures, etc. to deployed family member.

MTL Contents*

10 laptops	2 wireless routers	2 Canon Digital Cameras	
10 headsets	2 Photosmart Printers	2 Sony Camcorders	2 web cams

Requesting the MTL

To make it more accessible, Nebraska OMK has divided their MTL into two parts (5 laptops/1 printer/1 camcorder/1 camera). One part is located in Lincoln & the second part is located in Omaha. To request the MTL please contact Beth Kaiser either by phone or email. An MTL application will be sent for you to complete and return.
